

TARIFFS**2000 TARIFFS (Rates and Charges).****TARIFF INDEX**

<u>Electric Rates</u>	<u>Rate Code*</u>	<u>Sheet No.</u>
Residential Service - Farm and Home Service	01, 03, 05, 08, 21, 23, 25, 29	15
Residential Service - Time of Day - Optional	06, 07, 26, 27	16
General Services - Small and Irrigation - Time of Day - Optional	46, 47, 56, 57	17
General Services - Small	40, 42, 50, 51, 52, 58, 59	18
General Services - Large	62, 63, 64	19
General Services - Large Residential and Irrigation	04, 24, 41	20
General Services - Totalized Tariff	68	21
General Services - Large Power - Time of Use	66, 67	22
General Services - Street, Highway and Area Lighting	70	23
General Services - Security Yard Light Service	71, 72	24
General Services - Unmetered Service	74	25
General Services - Totalized Multiple Meter - Optional	69	26

*A letter or letters immediately following the rate code is used to further identify a specific characteristic, or combination of characteristics of service:

N designates "Net Metering" for services having generating capabilities on premises

S designates "Snowmass Local Government Surcharge District"

Electric Rate Adjustments

Wholesale Power Cost Adjustment Rate Rider (PCA)	27
Franchise Tax Rider	28
Renewable Energy Net Metering Service - Optional	29
Wind Energy Rider - Optional	30
Local Renewable Energy Rider - Optional	31
Snowmass Local Government Underground Surcharge	32
Service "Loss Factor" Revenue Adjustment Rider	33
Surcharge of Special Taxes Rider	34
Power Factor Adjustment Rider	35

Charges for Rendering Service

Connection and Reconnection Charges	36
Payment of Bills and Collection Charges	37
Foreign and Returned Check Charges	38
Miscellaneous Charges and Penalties	39

ELECTRIC RATES

RESIDENTIAL SERVICE – FARM AND HOME SERVICE

Availability:

Available to Rural Residential (Rate Codes 01, 05, 08), Rural All Electric Residential (Rate Code 03), Town Residential (Rate Codes 21, 25), Town All Electric Residential (Rate Code 23), separately metered Heat Only (Rate Code 29), consumers where use is for single family domestic occupancy and other Residential Services including but not limited to outbuildings, water pumps, barns, and garages. Service under this tariff is subject to the established tariffs, rules and regulations of Holy Cross.

Type of Service:

Single-phase and three-phase service at Holy Cross’s standard secondary voltages. Frequency and voltage shall be subject to electric industry standards.

Monthly Rate:

Consumer Charge	\$ 6.00
Energy Charge, per kWh	\$ 0.08052

Rate Code 08: See Sheet 33 Service “Loss Factor” Revenue Adjustment Rider
All Rate Codes: See Sheet 27 Wholesale Power Cost Adjustment Rate Rider

Minimum Monthly Charge:

The consumer’s Minimum Monthly Charge (which includes a Consumer Charge and an Energy Charge) shall not be less than the highest of the following:

1. The Minimum Monthly Charge specified in the Contract for Electric Service at the service location.
2. A Minimum Monthly Charge: Rate Code 29 \$ 6.00
: All Other Rate Codes \$ 11.65

Payment of the Minimum Monthly Charge shall entitle the consumer to the use of demand and energy corresponding to the difference between the Minimum Charge and the Consumer Charge in accordance with the foregoing rate.

The Wholesale Power Cost Adjustment as set forth on Sheet 27 shall be in addition to the Minimum Monthly Charge.

Conditions of Service:

1. Consumers receiving Electric Service under this tariff are required to comply with all Holy Cross policies, tariffs, rules and regulations, IEEE standards for harmonic distortion, and power factor requirements.
2. Operation of all electric loads will be subject to voltage flicker limits established by Holy Cross.

Terms of Payment:

Bills for Electric Service are due upon presentation in accordance with Sheet 37.

ELECTRIC RATES

RESIDENTIAL SERVICE - TIME OF DAY - OPTIONAL

Availability:

Available to Rural Residential (Rate Codes 06, 07) and Town Residential (Rate Codes 26, 27), consumers where use is for single family domestic occupancy. Service under this tariff is subject to the established tariffs, rules and regulations of Holy Cross.

Type of Service:

Single-phase and three-phase service at Holy Cross's standard secondary voltage. Frequency and voltage variation shall be subject to electric industry standards.

Monthly Rate:

Consumer Charge	\$ 12.00
Off-Peak Energy Charge, per kWh	\$ 0.04162
On-Peak Energy Charge, per kWh	\$ 0.13162

All Rate Codes: See Sheet 27 Wholesale Power Cost Adjustment Rate Rider

Where Off-Peak is defined as:

1. October through April
10:00 P.M. to 7:00 A.M.
11:00 A.M. to 5:00 P.M.
Sundays, New Years Day, Thanksgiving Day, and Christmas Day
2. May through September
10:00 P.M. to 1:00 P.M.
4:00 P.M. to 7:00 P.M.
Sundays, Memorial Day, Independence Day, and Labor Day

Where On-Peak is defined as:

All hours **not** defined as Off-Peak

Minimum Monthly Charge:

The consumer's Minimum Monthly Charge (which includes a Consumer Charge, an Off-Peak Energy Charge and an On-Peak Energy Charge) shall not be less than the highest of the following:

1. The Minimum Monthly Charge specified in the Contract for Electric Service at the service location.
2. A Minimum Monthly Charge of \$ 17.35

Payment of the Minimum Monthly Charge shall entitle the consumer to the use of demand and energy corresponding to the difference between the Minimum Charge and the Consumer Charge in accordance with the foregoing rate.

The Wholesale Power Cost Adjustment as set forth on Sheet 27 shall be in addition to the Minimum Monthly Charge.

ELECTRIC RATES

RESIDENTIAL SERVICE - TIME OF DAY - OPTIONAL

Conditions of Service:

1. Consumers receiving Electric Service under this tariff are required to comply with all Holy Cross policies, tariffs, rules and regulations, IEEE standards for harmonic distortion, and power factor requirements.
2. Operation of all electric loads will be subject to voltage flicker limits established by Holy Cross.
3. The Optional Time of Day Rate is voluntary and shall be applicable the first complete billing cycle after installation of the time of day meter. If the consumer requests to be taken off the Optional Time of Day Rate, the appropriate rate for which the service qualifies will be applied to the first complete billing cycle after receipt of the written request. The consumer shall be allowed to change to or from the Optional Time of Day Rate only once during any 12 month period.
4. Consumers requesting this rate must be on a regular Holy Cross meter reading route. Consumers not on a regular Holy Cross meter reading route may be eligible upon a case by case basis as long as it does not unduly burden Holy Cross.

Terms of Payment:

Bills for Electric Service are due upon presentation in accordance with Sheet 37.

ELECTRIC RATES

GENERAL SERVICES - SMALL AND IRRIGATION - TIME OF DAY - OPTIONAL

Availability:

Available to Irrigation (Rate Codes 46, 47) and General Services – Small (Rate Codes 56, 57) consumers whose annual Maximum Demand used is less than 150 kW. Service under this tariff is subject to the established tariffs, rules and regulations of Holy Cross.

Type of Service:

Single-phase and three-phase service at Holy Cross's standard secondary voltage. Frequency and voltage variation shall be subject to electric industry standards.

Monthly Rate:

Consumer Charge	\$ 12.00
Off-Peak Energy Charge, per kWh	\$ 0.04162
On-Peak Energy Charge, per kWh	\$ 0.13162

All Rate Codes: See Sheet 27 Wholesale Power Cost Adjustment Rate Rider

Where Off-Peak is defined as:

1. October through April
10:00 P.M. to 7:00 A.M.
11:00 A.M. to 5:00 P.M.
Sundays, New Years Day, Thanksgiving Day, and Christmas Day
2. May through September
10:00 P.M. to 1:00 P.M.
4:00 P.M. to 7:00 P.M.
Sundays, Memorial Day, Independence Day, and Labor Day

Where On-Peak is defined as:

All hours **not** defined as Off-Peak

Minimum Monthly Charge:

The consumer's Minimum Monthly Charge (which includes a Consumer Charge, an Off-Peak Energy Charge and an On-Peak Energy Charge) shall not be less than the highest of the following:

1. The Minimum Monthly Charge specified in the Contract for Electric Service at the service location.
2. A Minimum Monthly Charge of \$ 17.35

Payment of the Minimum Monthly Charge shall entitle the consumer to the use of demand and energy corresponding to the difference between the Minimum Charge and the Consumer Charge in accordance with the foregoing rate.

The Wholesale Power Cost Adjustment as set forth on Sheet 27 shall be in addition to the Minimum Monthly Charge.

ELECTRIC RATES

GENERAL SERVICES - SMALL AND IRRIGATION - TIME OF DAY - OPTIONAL

Conditions of Service:

1. Consumers receiving Electric Service under this tariff are required to comply with all Holy Cross policies, tariffs, rules and regulations, IEEE standards for harmonic distortion, and power factor requirements.
2. Operation of all electric loads will be subject to voltage flicker limits established by Holy Cross.
3. The Optional Time of Day Rate is voluntary and shall be applicable the first complete billing cycle after installation of the time of day meter. If the consumer requests to be taken off the Optional Time of Day Rate, the appropriate rate for which the service qualifies will be applied to the first complete billing cycle after receipt of the written request. The consumer shall be allowed to change to or from the Optional Time of Day Rate once during any 12 month period.
4. Consumers requesting this rate must be on a regular Holy Cross meter reading route. Consumers not on a regular Holy Cross meter reading route may be eligible upon a case by case basis as long as it does not unduly burden Holy Cross.

Terms of Payment:

Bills for Electric Service are due upon presentation in accordance with Sheet 37.

ELECTRIC RATES
GENERAL SERVICES - SMALL

Availability:

Available to Irrigation (Rate Codes 40, 42), General Services (Rate Codes 50, 51, 52, 58), and separately metered Heat Only (Rate Code 59), including but not limited to public buildings, schools, churches and general use consumers whose capacity used is less than 50 kW. Service under this tariff is subject to the established tariffs, rules and regulations of Holy Cross.

Type of Service:

Single-phase and three-phase service at Holy Cross's standard secondary voltage. Frequency and voltage variation shall be subject to electric industry standards.

Monthly Rate:

Consumer Charge	\$ 9.50
Energy Charge, per kWh	\$ 0.07255

Rate Code 58: See Sheet 33 Service "Loss Factor" Revenue Adjustment Rider
All Rate Codes: See Sheet 27 Wholesale Power Cost Adjustment Rate Rider

Minimum Monthly Charge:

The consumer's Minimum Monthly Charge (which includes a Consumer Charge and Energy Charge) shall not be less than the higher of the following:

1. The Minimum Monthly Charge specified in the Contract for Electric Service at the service location.
2. A Monthly Minimum Charge: Rate Code 59 \$ 9.50
: All Other Rate Codes \$ 17.35

Payment of the Minimum Monthly Charge shall entitle the consumer to the use of demand and energy corresponding to the difference between the Minimum Charge and the Consumer Charge in accordance with the foregoing rate.

The Wholesale Power Cost Adjustment (PCA) as set forth on Sheet 27 shall be in addition to the Minimum Monthly Charge.

Conditions of Service:

1. Consumers receiving Electric Service under this tariff are required to comply with all Holy Cross policies, tariffs, rules and regulations, IEEE standards for harmonic distortion, and power factor requirements.
2. Operation of all electric loads will be subject to voltage flicker limits established by Holy Cross.

Terms of Payment:

Bills for Electric Service are due upon presentation in accordance with Sheet 37.

ELECTRIC RATES

GENERAL SERVICES - LARGE

Availability:

Available to General Service consumers (Rate Codes 62, 63, 64), whose capacity used is 50 kW or greater. This tariff is optional to consumers whose annual Maximum Demand used is less than 50 kW subject to the established tariffs, rules and regulations of Holy Cross.

Type of Service:

Single-phase or three-phase service, at Holy Cross's standard secondary voltages. Frequency and voltage variation shall be subject to electric industry standards.

Monthly Rate:

Consumer Charge	\$ 26.00
Demand Charge: Maximum Demand, per kW	\$ 6.54
Energy Charge, per kWh	\$ 0.04442

All Rate Codes: See Sheet 27 Wholesale Power Cost Adjustment Rate Rider

Determination of Maximum Demand:

The consumer's Maximum Demand shall be the maximum rate at which energy is used, measured in kilowatts (kW), for any period of 15 consecutive minutes during each month for which service and a bill is rendered as shown by Holy Cross's metering equipment at the consumer's metering point.

Minimum Monthly Charge:

The consumer's Minimum Monthly Charge (which includes a Consumer Charge, a Demand Charge and an Energy Charge) shall not be less than the highest of the following:

1. The Minimum Monthly Charge specified in the Contract for Electric Service at the service location.
2. \$1.00 per kW per highest Maximum Demand billed in last 12 months. In the event no demand history is available, Holy Cross shall estimate, using the best means and information available, a maximum kW demand for the service location.

Payment of the Minimum Monthly Charge shall entitle the consumer to the use of demand and energy corresponding to the difference between the Minimum Charge and the Consumer Charge in accordance with the foregoing rate.

The Wholesale Power Cost Adjustment as set forth on Sheet 27 shall be in addition to the Minimum Monthly Charge.

Conditions of Service:

1. Consumers receiving Electric Service under this tariff are required to comply with all Holy Cross policies, tariffs, rules and regulations, IEEE standards for harmonic distortion, and power factor requirements.
2. Operation of all electric loads will be subject to voltage flicker limits established by Holy Cross.

Terms of Payment:

Bills for Electric Service are due upon presentation in accordance with Sheet 37.

ELECTRIC RATES

GENERAL SERVICES – LARGE RESIDENTIAL AND IRRIGATION

Availability:

Required of Residential Service (Rate Codes 04, 24) and Irrigation Service (Rate Code 41) consumers whose annual Maximum Demand used is 50 kW or greater. This tariff is optional to consumers whose capacity used is less than 50 kW subject to the established tariffs, rules and regulations of Holy Cross.

Type of Service:

Single-phase or three-phase service, at Holy Cross's standard secondary voltages. Frequency and voltage variation shall be subject to electric industry standards.

Monthly Rate:

Consumer Charge	\$ 26.00
Demand Charge: Maximum Demand, per kW	\$ 6.54
Energy Charge, per kWh	\$ 0.04442

All Rate Codes: See Sheet 27 Wholesale Power Cost Adjustment Rate Rider

Determination of Maximum Demand:

The consumer's Maximum Demand shall be the maximum rate at which energy is used, measured in kilowatts (kW), for any period of 15 consecutive minutes during each month for which service and a bill is rendered as shown by Holy Cross's metering equipment at the consumer's metering point.

Minimum Monthly Charge:

The consumer's Minimum Monthly Charge (which includes a Consumer Charge, a Demand Charge and an Energy Charge) shall not be less than the highest of the following:

1. The Minimum Monthly Charge specified in the Contract for Electric Service at the service location.
2. \$1.00 per kW per highest Maximum Demand billed in the last 12 months. In the event no demand history is available, Holy Cross shall estimate, using the best means and information available, a maximum kW demand for the service location.

Payment of the Minimum Monthly Charge shall entitle the consumer to the use of demand and energy corresponding to the difference between the Minimum Charge and the Consumer Charge in accordance with the foregoing rate.

The Wholesale Power Cost Adjustment as set forth on Sheet 27 shall be in addition to the Minimum Monthly Charge.

Conditions of Service:

1. Consumers receiving Electric Service under this tariff are required to comply with all Holy Cross policies, tariffs, rules and regulations, IEEE standards for harmonic distortion, and power requirements.
2. Operation of all electric loads will be subject to voltage flicker limits established by Holy Cross.

Terms of Payment:

Bills for Electric Service are due upon presentation in accordance with Sheet 37.

ELECTRIC RATES

GENERAL SERVICES - TOTALIZED TARIFF

Availability:

Available to Vail Associates, Inc., (Rate Code 68) for the mutually agreed upon facilities on Vail and Beaver Creek Mountains. Service under this tariff is subject to the established tariffs, rules and regulations of Holy Cross.

Type of Service:

Single-phase or three-phase service at available Holy Cross standard secondary voltages. Frequency and voltage variation shall be subject to electric industry standards.

Monthly Rate:

Holy Cross Service	
Consumer Charge	\$ 12,193.00
Demand Charge: Maximum Demand, per kWh	\$ 6.54
Energy Charge, per kWh	\$.01136
 Wholesale Power Supply	
Billing Peak Demand, per kWh	\$ 10.31
Energy Charge, per kWh	\$.02769

All Rate Codes: See Sheet 27 Wholesale Power Cost Adjustment Rate Rider

The Wholesale Power Cost Adjustment as set forth on Sheet 27 shall be in addition to the Minimum Monthly Charge.

Determination of Maximum Demand:

The consumer's Maximum Demand shall be the maximum rate at which energy is used, measured in kilowatts (kW), for any period of 15 consecutive minutes, occurring simultaneously at the designated Holy Cross metering points totaled for each calendar month for which service and a bill is rendered.

Determination of Wholesale Power Supply Billing Peak Demand:

The consumer's wholesale power supply billing peak shall be the 60 minute integrated kilowatt demand coincident at the time of Holy Cross's wholesale power billing peak at the designated Holy Cross's metering points totaled for each calendar month for which service and a bill is rendered.

Conditions of Service:

1. The consumer shall provide and maintain, at no cost to Holy Cross, conventional voice grade dial-up telephone circuits to the metering equipment. The telephone circuits shall be capable of operating a Bell 212A compatible modem at 1200/2400 baud with a ringer equivalence of 0.2A. Telephone circuits may be provided directly from the public switched network, cellular telephone network, or from a dedicated extension of the consumer's private business network, or from a dedicated extension of the consumer's private business exchange (PBX). The telephone circuit shall provide dial tone, touch tone signaling, ring voltage, and if a PBX extension, 24 hour direct inward dialing (DID) access or direct inward system access (DISA). The consumer shall inform Holy Cross of the telephone circuit number, extension number, DISA codes, and any changes thereto. In the event of a malfunction to the above mentioned circuits that prevents Holy Cross from communicating with the metering equipment, Holy Cross shall promptly investigate and determine the cause of the malfunction, and notify the consumer if the malfunction is a result of failure of their facilities. Upon such notice, the consumer shall promptly correct the malfunction, and if not corrected within 14 days, the consumer shall reimburse Holy Cross for all expenses incurred as a result of obtaining the metering information by other means.

ELECTRIC RATES

GENERAL SERVICES - TOTALIZED TARIFF

2. Consumers receiving Electric Service under this tariff are required to comply with all Holy Cross policies, tariffs, rules and regulations, IEEE standards for harmonic distortion, and power factor requirements.
3. Operation of all electric loads will be subject to voltage flicker limits established by Holy Cross.

Terms of Payment:

Bills for Electric Service are due upon presentation in accordance with Sheet 37.

ELECTRIC RATES

GENERAL SERVICES - LARGE POWER - TIME OF USE

Availability:

Required for consumers using electric service (Rate Codes 66, 67) for any facility or equipment utilized for the purpose of producing artificial snow whose annual Maximum Demand, per metering point, is 150 kW or greater. Optional to other qualified large power service consumers, subject to certain conditions of service and established tariffs, rules and regulations of Holy Cross.

Type of Service:

Single-phase or three-phase service at available Holy Cross standard secondary voltages. Frequency and voltage variation shall be subject to electric industry standards.

Monthly Rate:

Consumer Charge	\$ 162.00
Demand Charge: Maximum Demand, per kW	\$ 6.54
Wholesale Power Supply Peak Demand, per kW	\$ 10.31
Energy Charge, per kWh	\$.02972

All Rate Codes: See Sheet 27 Wholesale Power Cost Adjustment Rate Rider

Determination of Maximum Demand:

The consumer's Maximum Demand shall be the maximum rate at which energy is used, measured in kilowatts (kW), for any period of 15 consecutive minutes during each calendar month for which service and a bill is rendered as shown by Holy Cross's metering equipment at the consumer's metering point.

Determination of Wholesale Power Supply Billing Peak Demand:

The consumer's wholesale power supply billing peak shall be the 60 minute integrated kilowatt demand coincident at the time of Holy Cross's wholesale power billing peak at the designated Holy Cross metering point for each calendar month for which service and a bill is rendered.

Minimum Monthly Charge:

The consumer's Minimum Monthly Charge (which includes a Consumer Charge, a Demand Charge and an Energy Charge) shall not be less than the highest of the following:

1. The Minimum Monthly Charge specified in the Contract for Electric Service at the service location.
2. \$1.00 per kW per highest Maximum Demand billed in the last 12 months. In the event no demand history is available, Holy Cross shall estimate, using the best means and information available, a maximum kW demand for the service location.

Payment of the Minimum Monthly Charge shall entitle the consumer to the use of demand and energy corresponding to the difference between the Minimum Charge and the Consumer Charge in accordance with the foregoing rate.

The Wholesale Power Cost Adjustment as set forth on Sheet 27 shall be in addition to the Minimum Monthly Charge.

ELECTRIC RATES

GENERAL SERVICES - LARGE POWER -TIME OF USE

Conditions of Service:

1. The consumer shall provide and maintain, at no cost to Holy Cross, conventional voice grade dial-up telephone circuits to the metering equipment. The telephone circuits shall be capable of operating a Bell 212A compatible modem at 1200/2400 baud with a ringer equivalence of 0.2A. Telephone circuits may be provided directly from the public switched network, cellular telephone network, or from a dedicated extension of the consumer's private business network, or from a dedicated extension of the consumer's private business exchange (PBX). The telephone circuit shall provide dial tone, touch tone signaling, ring voltage, and if a PBX extension, 24 hour direct inward dialing (DID) access or direct inward system access (DISA). The consumer shall inform Holy Cross of the telephone circuit number, extension number, DISA codes, and any changes thereto. In the event of a malfunction to the above mentioned circuits that prevents Holy Cross from communicating with the metering equipment, Holy Cross shall promptly investigate and determine the cause of the malfunction, and notify the consumer if the malfunction is a result of failure of their facilities. Upon such notice, the consumer shall promptly correct the malfunction, and if not corrected within 14 days, the consumer shall reimburse Holy Cross for all expenses incurred as a result of obtaining the metering information by other means.
2. Consumers receiving Electric Service under this tariff are required to comply with all Holy Cross policies, tariffs, rules and regulations, IEEE standards for harmonic distortion, and power factor requirements.
3. Operation of all electric loads will be subject to voltage flicker limits established by Holy Cross.

Terms of Payment:

Bills for Electric Service are due upon presentation in accordance with Sheet 37.

ELECTRIC RATES

GENERAL SERVICES – STREET, HIGHWAY AND AREA LIGHTING SERVICE

Availability:

Available to municipalities, homeowners associations (Rate Code 70), and like entities, subject to the established tariffs, rules and regulations of Holy Cross.

Type of Service:

Unmetered photo-electric controlled street lighting. The service shall be overhead or underground, single-phase, at the available secondary voltages. Frequency and voltage variation shall be subject to electric industry standards.

Monthly Rate Per Lamp:

Public Street, Highway and Area Lighting:

For all fixtures under this Tariff, the charge shall be per watt per month - \$.04510.

The monthly rate per lamp will vary due to the application of the Wholesale Power Cost Adjustment Rate Rider (Sheet 27) to the standard utility usage calculation for lighting devices.

Conditions of Service:

1. The above rates shall apply to consumer-owned street, highway and area lighting fixtures.
2. Fixtures, overhead cable and/or associated equipment installed on Holy Cross owned poles shall be only Holy Cross approved fixtures and shall be installed and maintained by Holy Cross at the expense of the consumer. Approved fixtures are currently limited to 100 watt HPS and 250 watt HPS lighting devices. Additional poles, if required, shall be installed by Holy Cross at the expense of the consumer.
3. Ornamental standards, fixtures and brackets requiring special installation and/or foundations shall be purchased, installed and maintained by the consumer. Ornamental fixtures and brackets shall not be installed on Holy Cross owned poles.
4. Consumers receiving service under this Tariff are required to comply with all Holy Cross policies, tariffs, rules and regulations, IEEE standards for harmonic distortion, and power factor requirements.
5. Operation of all electric loads will be subject to voltage flicker limits established by Holy Cross.

Terms of Payment:

Bills for Electric Service are due upon presentation in accordance with Sheet 37.

ELECTRIC RATES

GENERAL SERVICES - SECURITY YARD LIGHT SERVICE

Availability:

Available to Residential (Rate Code 72), General Services (Rate Code 71), consumers subject to the established tariffs, rules and regulations of Holy Cross.

Type of Service:

Unmetered, photo-electric controlled security yard lighting. The service shall be single-phase, overhead. Frequency and voltage variation shall be subject to electric industry standards.

Monthly Rate Per Security Light Installed:

Monthly charge, security yard light installed on existing pole:

175 Watt Mercury Vapor *	\$ 8.77
400 Watt Mercury Vapor *	\$20.27
100 Watt HPS	\$ 6.35
250 Watt HPS	\$13.96

The monthly rate per lamp will vary due to the application of the Wholesale Power Cost Adjustment Rate Rider (Sheet 27) to the standard utility usage calculation for lighting devices.

*Available for existing facilities and consumers as of May 5, 2005, with no new additions after this date.

Conditions of Service:

1. The above tariffs shall apply to lighting fixtures and overhead cable furnished, installed and maintained by Holy Cross where no additional poles or associated equipment are required. For security lights requiring additional poles and/or associated equipment, such facilities shall be installed by Holy Cross at the consumer's expense. All facilities which are installed by Holy Cross shall remain the property of Holy Cross.
2. The minimum contract period for service shall be one year.
3. Consumers receiving Electric Service under this tariff are required to comply with all Holy Cross policies, tariffs, rules and regulations, IEEE standards for harmonic distortion and power factor requirements.
4. Operation of all electric loads will be subject to voltage flicker limits established by Holy Cross.

Terms of Payment:

Bills for Electric Service are due upon presentation in accordance with Sheet 37.

ELECTRIC RATES

GENERAL SERVICES – UNMETERED SERVICE

Availability:

Available to municipalities, homeowners associations and like entities (Rate Code 74), subject to the established tariffs, rules and regulations of Holy Cross.

Type of Service:

Unmetered electric service to small, fixed loads whose monthly usage can be reasonably established where Holy Cross has determined that installation of an electric meter is not practical due to the minimal level of expected consumption. The service shall be overhead or underground, single-phase, at the available secondary voltages. Frequency and voltage variation shall be subject to electric industry standards.

Monthly Rate Per Lamp or Device:

For all fixtures or devices under this tariff, the charge shall be per watt per month - \$.04510.

The monthly rate per fixture or device will vary due to the application of the Wholesale Power Cost Adjustment Rate Rider (Sheet 27).

Conditions of Service:

1. The above tariffs shall apply to fixtures and devices owned and installed by the consumer and attached to Holy Cross facilities. For connection to Holy Cross facilities, the consumer shall install a disconnect switch with suitable fusing to protect their equipment. All maintenance and replacement of fixtures and devices shall be the responsibility of the consumer.
2. Consumers receiving Electric Service under this tariff are required to comply with all Holy Cross policies, tariffs, rules and regulations, IEEE standards for harmonic distortion, and power factor requirements.
3. Operation of all electric loads will be subject to voltage flicker limits established by Holy Cross.

Terms of Payment:

Bills for Electric Service are due upon presentation in accordance with Sheet 37.

ELECTRIC RATES

GENERAL SERVICES - TOTALIZED MULTIPLE METER - OPTIONAL

Availability:

Available to consumers who have multiple service connections (Rate Code 69) in one building whose aggregated Maximum Demand would exceed 500 kW at least once annually. Service under this tariff is subject to established tariffs, rules and regulations of Holy Cross.

Type of Service:

Single-phase or three-phase service, at Holy Cross's standard secondary voltages. Frequency and voltage variation shall be subject to electric industry standards.

Monthly Rate:

Base Consumer Charge	\$ 100.00
Consumer Charge, per Meter	\$ 26.00
Demand Charge: Maximum Demand, per kW	\$ 6.54
Energy Charge, per kWh	\$ 0.04442

All Rate Codes: See Sheet 27 Wholesale Power Cost Adjustment Rate Rider

Determination of Maximum Demand:

The consumer's Maximum Demand shall be the maximum rate at which energy is used, measured in kilowatts (kW), for any period of 15 consecutive minutes, occurring simultaneously at the designated Holy Cross metering points totalized for each calendar month for which service and a bill is rendered.

Minimum Monthly Charge:

The consumer's Minimum Monthly Charge (which includes a Consumer Charge, a Demand Charge, and an Energy Charge) shall not be less than the highest of the following:

1. The Minimum Monthly Charge specified in the Contract for Electric Service at the service location.
2. \$1.00 per kW per highest Maximum Demand billed in last 12 months. In the event no demand history is available, Holy Cross shall estimate, using the best means and information available, a maximum kW demand for the service location.

Payment of the Minimum Monthly Charge shall entitle the consumer to the use of demand and energy corresponding to the difference between the Minimum Charge and the Consumer Charge in accordance with the foregoing rate.

The Wholesale Power Cost Adjustment as set forth on Sheet 27 shall be in addition to the Minimum Monthly Charge.

Conditions of Service:

1. Consumers receiving Electric Service under this tariff are required to comply with all Holy Cross policies, tariffs, rules and regulations, IEEE standards for harmonic distortion, and power factor requirements.
2. Operation of all electric loads will be subject to voltage flicker limits established by Holy Cross.

ELECTRIC RATES

GENERAL SERVICES - TOTALIZED MULTIPLE METER - OPTIONAL

3. The consumer shall provide and maintain, at no cost to Holy Cross, conventional voice grade dial-up telephone circuits to the metering equipment. The telephone circuits shall be capable of operating a Bell 212A compatible modem at 1200/2400 baud with a ringer equivalence of 0.2A. Telephone circuits may be provided directly from the public switched network, cellular telephone network, or from a dedicated extension of the consumer's private business network, or from a dedicated extension of the consumer's private business exchange (PBX). The telephone circuit shall provide dial tone, touch tone signaling, ring voltage, and if a PBX extension, 24 hour direct inward dialing (DID) access or direct inward system access (DISA). The consumer shall inform Holy Cross of the telephone circuit number, extension number, DISA codes, and any changes thereto. In the event of a malfunction to the above mentioned circuits that prevents Holy Cross from communicating with the metering equipment, Holy Cross shall promptly investigate and determine the cause of the malfunction, and notify the consumer if the malfunction is a result of failure of their facilities. Upon such notice, the consumer shall promptly correct the malfunction, and if not corrected within 14 days, the consumer shall reimburse Holy Cross for all expenses incurred as a result of obtaining the metering information by other means.
4. Consumers receiving Electric Service under this tariff are required to comply with all Holy Cross policies, tariffs, rules and regulations, IEEE standards for harmonic distortion, and power factor requirements.
5. Operation of all electric loads will be subject to voltage flicker limits established by Holy Cross.

Terms of Payment:

Bills for Electric Service are due upon presentation in accordance with Sheet 37.

ELECTRIC RATE ADJUSTMENTS

WHOLESALE POWER COST ADJUSTMENT RATE RIDER (PCA)

Applicability:

Applicable to all metered and unmetered consumers receiving electric service from Holy Cross under all Tariffs.

- Note: 1) Tariff Sheets 16 and 17 - The PCA will be applied to both on and off peak energy charge per kWh.
2) Tariff Sheet 21 - The PCA will only be applied to the Power Supply Energy Charge per kWh.
3) Energy increments (kWh) purchased by consumers under Tariff Sheet 30 - Wind Energy Rider and Tariff Sheet 31 - Local Renewable Energy Rider will be excluded from any monthly PCA charge.

Monthly Rate:

The Energy Charge for each kilowatt hour sold under the applicable tariffs shall be increased or decreased per kilowatt hour by an amount equal to:

$$PCA = [(C + R + A)/S] - B$$

Where:

PCA = Wholesale Power Cost Adjustment expressed in \$0.00000 per kWh

C = The projected total wholesale power cost in dollars from all suppliers computed for the 12 month period

R = Costs associated with Renewable Energy Credits (RECs) as defined and rebates paid to Holy Cross consumers for installation of renewable energy generation facilities and conservation measures. In no event shall R exceed 1.125% of any calendar year operating revenues

A = Any adjustments in dollars to correct for over or under recovery of Wholesale Power costs

S = Projected total estimated sales in kWhs for the 12 month period

B = Base amount of wholesale power cost recovered in retail tariffs is \$0.04500

Renewable Energy Credits mean a contractual right to the full set of non-energy attributes, including any and all credits, benefits, emission reductions, offsets and allowances, howsoever entitled, directly attributable to a specific amount of energy generated from a renewable energy resource or generation facility using a vented methane combustion process.

Calculation:

The PCA will be computed according to the above formula for a 12 month period beginning January of each calendar year.

For each month of the 12 month period, Holy Cross will recalculate the PCA monthly adjusting for actual wholesale power costs and sales as that information becomes available and any change in projections as deemed appropriate. Should such recalculation indicate significant under or over recovery of wholesale power costs for the calendar year, Holy Cross may modify the PCA to more accurately recover calendar year wholesale power costs. Holy Cross may at its sole discretion not collect a portion of the wholesale power cost to be recovered herein, provided that after doing so its financial condition will remain in a sound position.

ELECTRIC RATE ADJUSTMENTS

FRANCHISE TAX RIDER

Applicability:

Applicable to all consumers receiving electric service within incorporated municipalities, towns and villages, as named, in which a franchise tax or utility occupation tax ordinance has been approved and is in effect.

Monthly Rate:

The following percentage rates shall be surcharged monthly on all electric service revenues received within said municipalities, towns and villages for so long as the respective municipal charges imposed remain as stated:

City of Aspen	3%
Town of Avon	3%
Town of Basalt	3%
Town of Carbondale	3%
Town of Eagle	3%
Town of Gypsum	3%
Town of Minturn	3%
Town of Silt	3%
Town of Snowmass Village	3%
Town of Vail	3%

The following amounts shall be surcharged on a flat fee basis to all consumers receiving electric service within said municipality, town or village.

Town of Marble	\$1.25 per quarter
----------------	--------------------

ELECTRIC RATE ADJUSTMENTS

RENEWABLE ENERGY NET METERING SERVICE - OPTIONAL

Applicability:

Applicable to Holy Cross consumers who, at their electric service account location, own, operate and maintain an on-site renewable energy generating system in parallel with the Holy Cross electrical system, which has a maximum nameplate output capacity of no greater than 25 kilowatts. Net Metering Service is available to metered Holy Cross consumers who are receiving electric service under Tariff Sheets 15, 18, 19 and 20. Net Metering Service is subject to the established tariffs, rules and regulations of Holy Cross.

Eligible renewable energy generating systems shall be solar, wind, geothermal, biomass and hydroelectric. Consumers may apply to Holy Cross for incentives as available.

Type of Service:

Single-phase and three-phase service at Holy Cross's standard secondary voltages.

Net Metering:

Net metering shall be, for billing purposes, the net consumption at Holy Cross's service meter(s). Net consumption is the difference between the gross amount of energy generated by the renewable energy generating system and the gross amount of energy used on the consumer's premises. However, in the event that the renewable energy generating system production is greater than the consumer's consumption on the premises in any month, such excess production, expressed in kilowatt hours (kWh), shall be carried forward from month to month and credited against future consumption.

In the event that the operation of a renewable energy generating system results in net excess production at the end of a calendar year, Holy Cross will pay the consumer for the excess production at a price equivalent to Holy Cross's average cost of wholesale power, per kWh, over the prior calendar year.

Monthly Rate:

All electric service delivered by Holy Cross at its service meter will be billed at the consumer's applicable retail rate as specified in the applicable tariff sheet. Holy Cross shall net meter all electric power and energy produced by an eligible renewable energy generating system, as provided in this tariff.

Minimum Monthly Charge:

The Monthly Minimum Charge for Tariff Sheets 15, 18, 19 and 20 shall be the greater of:

1. The Monthly Minimum Charge specified in the Contract for Electric Service at the service location.
2. The Consumer Charge specified in the consumers applicable rate.

Conditions of Service:

1. Consumers receiving Electric Service under this tariff are required to comply with Holy Cross's interconnection standards.
2. The consumer will own any Renewable Energy Credits associated with the renewable generating system unless otherwise agreed to.

Other Terms:

All other terms and conditions specified in the consumer's applicable tariff sheet shall apply.

ELECTRIC RATE ADJUSTMENTS

WIND ENERGY RIDER - OPTIONAL

Availability:

Available to all Holy Cross consumers that are receiving electric service under an existing tariff. The availability of Wind Energy increments and Local Renewable Energy increments (Sheet 31) is limited to not more than 125% of consumer's annual average monthly usage. Service under this tariff is subject to the established tariffs, rules and regulations of Holy Cross.

Type of Service:

Wind Energy taken in 100 kWh increments as used under their existing tariff rate.

Monthly Rate:

Wind Energy Rider per 100 kWh increment per month \$2.50

This rider is in addition to the monthly energy charge of the consumer's existing tariff.

ELECTRIC RATE ADJUSTMENTS

LOCAL RENEWABLE ENERGY RIDER – OPTIONAL

Availability:

Available to all Holy Cross retail consumers that are receiving electric service under an existing tariff. The availability of Local Renewable Energy increments and Wind Energy increments (Sheet 30) is limited to not more than 125% of consumer's annual average monthly usage. Service under this tariff is subject to the established tariffs, rules and regulations of Holy Cross.

Type of Service:

Local Renewable Energy taken in monthly 75 kWh increments as used under their existing tariff rate.

Monthly Rate:

Local Renewable Energy Rider per 75 kWh increment per month	\$2.50
---	--------

This rider is in addition to the monthly energy charge of the consumer's existing tariff.

Note: The optional energy purchased under this rider is generated locally in Holy Cross's service territory. This energy only comes from wind, hydro, biomass, geo-thermal or solar generating facilities as available.

ELECTRIC RATE ADJUSTMENTS

SNOWMASS LOCAL GOVERNMENT UNDERGROUND SURCHARGE

Applicability:

Applicable to all consumers receiving electric service within the boundary stipulated in both Pitkin County Board of County Commissioner's Resolution No. 106 2003 and Town of Snowmass Village Town Council Resolution No. 34 Series of 2003.

Monthly Rate:

The monthly rate shall comply with Holy Cross Electric Service Tariffs, Rules and Regulations, Rule 3040, Local Government Mandated Facility charges.

A percentage surcharge shall be applied to the above consumers based upon the following:

The percentage surcharge equals the "Annual Costs" divided by the "Annual Revenue."

The "Annual Costs" shall include those costs associated with Operations and Maintenance, Administrative and General, Depreciation, Interest, Insurance, Property Taxes, Margins, and may include adjustments for prior year over/under collections.

The "Annual Costs" may also include extraordinary costs associated with exceptional operating and maintenance expenses related to the mandated project.

The "Annual Revenue" shall be the projected annual revenue associated with the above consumers including the projected "Power Cost Adjustment."

Surcharge Annual Adjustment:

The surcharge shall be annually adjusted for the difference, positive or negative, between the annual surcharge actually collected by Holy Cross and the annual projected surcharge. This adjustment, if required, will be effective beginning with the May billing for the following year.

ELECTRIC RATE ADJUSTMENTS

SERVICE "LOSS FACTOR" REVENUE ADJUSTMENT RIDER

Applicability:

All consumers receiving electric service which requires the use of multiple unmetered voltage transformations on the supply side of the point of metering.

Monthly Rate:

In addition to charges incurred under the applicable tariff, a service "loss factor" adjustment will be added and computed by increasing the consumer's billing units, both demand (kW) and/or energy (kWh), by 2.1% and applied to the monthly rate charges provided within the applicable tariff.

Conditions of Service:

1. Must receive prior written approval for facility.
2. Facility shall use the lowest available loss transformer.
3. Provide Holy Cross with "Typical Transformer Test Data" and "Certified Test Reports".
4. Unmetered voltage transformation devices within consumer service are owned, operated and maintained by the consumer.
5. Consumer shall provide for the installation of the appropriate metering devices in accordance with Holy Cross guidelines.

ELECTRIC RATE ADJUSTMENTS

SURCHARGE OF SPECIAL TAXES RIDER

Applicability:

Applicable to all classes of electric service.

Policy:

Holy Cross reserves the right to surcharge or pass on any tax or assessment which may be levied against Holy Cross by any governmental authority whether such tax or assessment is based on revenues, consumption level, meters, consumers, occupancy, or any other graduated basis, or any flat rate. Such surcharge shall be made to all consumers who purchase energy within the boundaries of such governmental authority.

ELECTRIC RATE ADJUSTMENTS

POWER FACTOR ADJUSTMENT RIDER

Applicability:

Applicable to all Holy Cross consumers that are receiving electric service under any tariff subject to the established tariffs, rules and regulations of Holy Cross.

Policy:

The consumer will maintain at all times a power factor between 95% lagging and 95% leading, at Holy Cross's point of delivery.

In the event a system condition exists due to lagging or leading power factor in a degree sufficient to impair Holy Cross's service, the consumer will install suitable equipment necessary to correct the power factor at the point of delivery. Power factor correction will be to a satisfactory value established by Holy Cross. Where such corrective equipment is used, the consumer will install and maintain all required equipment, including the related disconnecting and controlling equipment, in order to prevent excessive voltage variations on Holy Cross's facilities.

If the consumer fails to correct the voltage condition within 12 months after receiving written notification from Holy Cross to correct the condition, Holy Cross shall impose a monthly adjustment, as determined by Holy Cross, equal to one of the following:

1. 10% of the monthly billing; or
2. 1% for each 1% by which the average power factor is less than 95% lagging or leading.

If the consumer fails to correct the voltage condition within 24 months after receiving the written notification from Holy Cross to correct the condition, Holy Cross shall impose, as determined by Holy Cross, one of the following:

1. Monthly Adjustment of 25% of the monthly billing; or
2. Monthly Adjustment of 2% for each 1% by which the average power factor is less than 95% lagging or leading.

Termination of service may occur at any time after 24 months from receiving the written notification if Holy Cross determines that unacceptable progress, to correct the problem, continues. Holy Cross shall provide six months written notice prior to termination of service. Service will be reinstated when the problem is corrected.

**CHARGES FOR RENDERING SERVICE
CONNECTION AND RECONNECTION CHARGES**

Application:

Applicable to all classes of electric service.

Policy:

A charge shall be made for all service calls to the consumer's premises for connects, reconnects and transfers. A charge may also be made for service calls requested by the consumer that are due to the failure of the consumer's equipment, or any other service call which is not necessary for the efficient operation of Holy Cross.

Charges:

The charges for the above described services shall be as follows:

Connect/Transfer Service, premise visit required	\$ 25.00
Express Transfer Service, no premise visit required	\$ 10.00
* After Hours Connect Fee outside of regular service hours	\$150.00
** Unnecessary Premise Visit during regular service hours	\$ 75.00
Investigation and/or Resealing of Meters and/or Services Due to Unauthorized Activity (Minimum Charge of one hour)	\$ 75.00/per employee per hour

Regular service hours of Holy Cross are Monday through Thursday, 7:00 A.M. to 4:00 P.M., and Friday, 7:00 A.M. to 3:00 P.M.

* Persons making a request for electric service outside of regular business hours may be required to provide a \$100.00 prepayment in addition to the After Hours Connect Fee. The \$100.00 prepayment will be credited to the Person's electric service account and applied toward required deposits, charges, fees and/or cost of electric energy used.

** An Unnecessary Premise Visit is usually a consumer initiated request for a service call that is due to the consumer's failure to meet their obligation, a failure of the consumer's equipment and/or a call which is not necessary for the efficient operation of Holy Cross. The charges for an Unnecessary Premise Visit outside of regular service hours will be \$75.00 per employee per hour with a Minimum Charge of one hour.

CHARGES FOR RENDERING SERVICE

PAYMENT OF BILLS AND COLLECTION CHARGES

Application:

Applicable to all classes of electric service.

Bills for Electric Service are due upon presentation and if payment is not made within 15 days, the bill is past due, 30 days after which, the bill, or unpaid portion of the bill will be considered delinquent and service may be discontinued upon 10 days written notice.

Bills unpaid 30 days from the payment due date are subject to a Late Payment Charge. A Personal Contact Service charge will be collected for Holy Cross's efforts to personally contact the consumer by telephone or other means prior to interruption of service. A charge may be collected for any Premise Visit including collection and/or discontinuance of service visits.

Late Payment Charge, per account	\$ 5.00
Personal Contact Service	\$15.00
Premise Visit	\$25.00

Payments made by the consumer will be applied to tariffed charges first and then to any other non-tariffed charges and to the oldest balance due separately within each category.

CHARGES FOR RENDERING SERVICE

FOREIGN AND RETURNED CHECK CHARGES

Application:

Applicable to all classes of electric service.

Policy:

Consumers having payments returned to Holy Cross marked "Insufficient Funds, Short Check - Do Not Redeposit, or Account Closed", or any other designation indicating inadequate funds will be charged a Non-Sufficient Fund (NSF) Processing Fee.

Each Instance, per check

\$ 35.00

Any fee charged to Holy Cross by its bank for processing a check drawn against a foreign bank shall be charged back to the consumer's account.

CHARGES FOR RENDERING SERVICE

MISCELLANEOUS CHARGES AND PENALTIES

Application:

Applicable to all classes of electric service.

Policy:

A charge may be made for any and all costs (including all reasonable and necessary legal fees and costs) made necessary by, and/or a penalty levied because of, a consumer's failure to comply with any of Holy Cross's Electric Service Tariffs, Rules or Regulations.

A consumer will be advised in writing of their failure to comply with any of Holy Cross's Electric Service Tariffs, Rules or Regulations and be given a specific amount of time, generally 30 days subject to negotiation, to remedy the situation. Should a consumer fail to comply within the specified time, the consumer may be charged a penalty of up to \$50.00 per day until the situation is remedied or the consumer's electric service is disconnected. Continued non-compliance may result in the consumer's electric service being disconnected after 60 days. The electric service will not be restored until the consumer is in compliance and applicable charges and/or penalties have been paid.

1. A consumer connecting multiple units must verify that each meter base and attendant main disconnect device is accurately identified as to which unit is served by that meter base as stated in Holy Cross's Consumer Service Facilities Metering and Use Guidebook. Should an identification error occur, the original connecting consumer may be charged for all costs related to investigation, verification, record charges, billing adjustments and meter charges caused by the inaccuracy.
2. The diversion of electric energy is a violation of Holy Cross's Electric Service Tariffs, Rules and Regulations. The consumer in violation shall be charged for unbilled electric energy, the cost of investigation and confirmation of such diversion, the cost of disconnecting service, and the cost of any other related labor. Also see Rule 5160 Diversion of Electric Energy.

The consumer shall also be charged a penalty of \$100.00 for their first offense of diversion of electric energy and \$500.00 for their second offense. Subsequent offenses will result in a penalty of up to \$5,000.00 for each offense.

Charges:

The charges for labor costs related to the failure to comply with any Electric Service Tariffs, Rules or Regulations, including the above described violations, shall be as follows:

Miscellaneous Labor Charge	\$75.00 per employee per hour
----------------------------	-------------------------------
