Residential: Energy Efficiency Incentives and Rebates

Guideline References: (*Note - All approved incentives by Holy Cross Energy shall be credited to the "Consumer of Record" electric account*)

1. The incentive amount cannot exceed 50% of the actual cost of the retrofit/upgrade. Original invoices and/or receipts for purchases must be furnished.
 - a. To be eligible for the new rebates, any purchases or work done, must be on or after March 1, 2012 (effective date for new incentives).
 - b. Rebate application and associated invoices/receipts must be received not later than 120 days from date of applicable invoice(s) and/or receipt(s).
2. Individual incandescent holiday light strings must be turned in to the Avon, Gypsum or Glenwood Springs offices during normal business hours. Please separate the strings for easy validation of the quantity turned in.
3. The existing unit must be in working condition. Evidence of proof of disposal / recycling must be furnished. Holy Cross does not accept units at any of our offices.
4. A separate "Insulation" application is required that clarifies the terms and conditions associated with the insulation incentive. Work shall be rebated on the basis of 30% of the invoiced installed cost (IC) not-to-exceed (NTE) \$300 per activity. Work must be performed by those insulation contractors on Holy Cross Energy's approved list.
This incentive applies to all electric homes only!
5. Random "pre and post" inspections may be conducted to ensure quality control for the retrofit / upgrade activity completed.
