

HOLY CROSS ENERGY

A Touchstone Energy® Cooperative 

Commercial Cooling Efficiency Rebate Application

Please complete the rebate application for each measure. Application will be returned without valid purchase receipt/invoice or if equipment requirements are not met. Submit application and invoices to rebates@holycross.com or fax to Member Services at 970-947-5455 or mail to Holy Cross Energy, Attn: WE CARE Program, PO Box 2150, Glenwood Springs, CO 81602.

Business Customer Information

Account Number (9 digits) _____

Account Holder Name _____ Phone _____ Email _____
(As shown on your utility bill)

Service Street Address _____

Account holder hereby certifies that 1. The account holder is solely responsible for the accuracy of the application information; 2. All installation is complete and operational prior to submitting this application; 3. All rules of Holy Cross energy efficiency program have been followed; 4. Holy Cross is not liable for any work performed; 5. Account is in good standing (no more than 2 delinquent payments in 12 months). By typing your name below, you are agreeing to all terms of this rebate application.

Account Holder Signature _____ Date _____

Rebate Check Issued to Another Party

Note: Complete this section only if the rebate should be issued to someone other than the account holder named above.

Name _____ Phone _____

Address _____ City _____ State _____ Zip _____

I authorize the above party to receive the rebate check.

Cooling Efficiency

New Equipment	Specifications		Rebate/Unit x	Qty =	Rebate
Economizers	No economizer	Add an economizer to an existing unit where no economizer exists or to a replacement high efficiency unit where an economizer previously did not exist, or is not required by code	\$250		
Ductless mini-split heat pump	Minimum 16 SEER/11 HSPF	Unit used for heating and cooling; must install cold climate air-source heat pump from qualifying list	\$800		
Ductless mini-split heat pump	Minimum 16 SEER/11 HSPF	Unit used strictly for cooling	\$75 per ton		
Direct Evaporative Pre-cooling for Air-Cooled Condensers (DEPACC)					
Single units between 5 and 200 tons (60,000 and 2,400,000 BTU)	Packaged RTU or matched split systems, and air-cooled chillers	Media performance efficiency of at least 75% Must have enthalpy controls to control pre-cooler operation.	\$100 per ton of installed cooling		
Total Rebate					

# of Units	Manufacturer	Model #	Tons/units	EER/SEER (mini-split)
