2023 BENEFITS OVERVIEW

WELCOME Benefits are an important part of overall compensation. We are pleased to offer a comprehensive array of quality benefits to protect your health, your family and your way of life.

MEDICAL PLANS

We offer employees a choice among two different medical plans. Coverage under all plans includes comprehensive medical care and prescription drug coverage.

Traditional PPO Plan — This plan gives you the freedom to seek care from the provider of your choice. However, you will maximize your benefits and reduce your out-of-pocket costs if you choose a provider who participates in the Cigna Network. The calendar-year deductible must be met before certain services are covered. However, the PPO plan offers 100% benefits following applicable copays, for certain expenses such as office visits, urgent care, emergency room and prescriptions.

High Deductible Health Plan (HDHP) — Like the PPO Plan, the High-Deductible Health Plan (HDHP) gives you the freedom to seek care from the provider of your choice. You will maximize your benefits and reduce your out-of-pocket costs if you choose a provider who participates in the Cigna Network. In addition, the HDHP comes with the option of opening a health savings account (HSA) that allows you to save pre-tax dollars1 to pay for any qualified health care expenses as defined by the IRS, including most out-of-pocket medical, prescription drug, dental and vision expenses.

You may contribute to your HSA through pre-tax payroll deductions to help offset your annual deductible and pay for qualified health care expenses. To be eligible for the HSA, you cannot be covered through Medicare Part A or Part B or Tricare programs. In addition, you cannot be covered by any health plan which includes first dollar coverage (including an FSA through your employer or spouse’s employer).

Important: Your contributions, in addition to the company’s contributions of $1,000 for employee only and $2,000 for employee plus one or employee plus family, may not exceed the annual IRS limits listed below.
